Correct way to put a heading

Mrs. Schutte ← name
Science 5 6 ← class
9-9-14 ← date

① Read pages 6 to 13
in Chapter 1, section 1.
Ask your parent to help you understand a little bit....

② Describe these words:
· use a couple sentences, or phrases that explain a lot!

• reference point =
example → good answer → an object used to compare to decide if something is in motion.
bad answer → an object or thing (add more words or details to explain it better)

• relative motion =

• Average speed =

* Not sure of the answer? Don't leave it blank. Write something! Even the page # where you read about the words, even if you don't understand them.
